

## #20 Layer mask

**Step 1:** Use the Rectangular Marquee Tool to select the Stormtrooper.

**Step 2:** Copy and paste the Stormtrooper over the top of the image with the trees. (Example shown below)

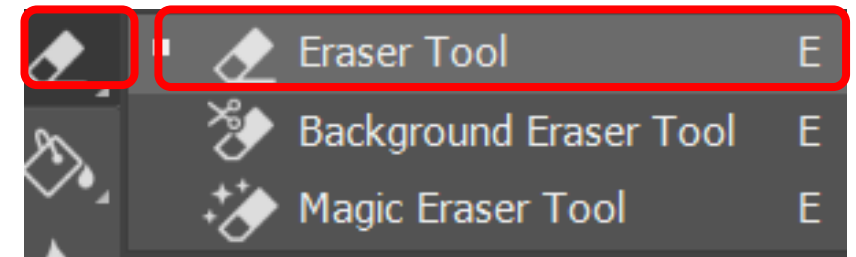

**Step 3:** Re-name the layer and select the layer mask. (Make sure Stormtrooper layer has been selected.)

### Guidance

This tool is available in older versions of Photoshop. In Photopea, it's referred to as a raster mask.

**Step 4:** Select the Eraser Tool

**Step 5:** Rub out part of the Stormtrooper so it reveals the rest of the tree.

*If the Eraser Tool doesn't work then try the Brush Tool.*
